Notes: - Sales exclude non-sales transactions, and do not include rebates found in the rebates files. If sales dollars for a particular NDC and customer number for the whole year were negative, they were dropped.

- Governmental buyers account for 2.62% of total Intron-A sales.

- The NDCs used were all Schering Intron-A NDCs analyzed in the MDL (00085012002, 00085012003, 00085012004, 00085012005, 00085028502, 00085053901, 00085057102, 00085057106, 00085064703, 00085064704, 00085064705, 00085068901, 00085076901, 00085092301, 00085095301, 00085111001, 00085113301, 00085116801, 00085117901, 00085117902, 00085118401, 00085118402, 00085119101, 00085119102, 00085123501, 00085124201, 00085125401).

- Governmental buyers are defined as the following customer classes of trade and class of trade numbers: Armed Services (331), VA & Public Health (332), Other Federal Institutions (333), Public Health Service (334), VA Depots (511), and Armed Service Depots (512).

- These classes of trade are excluded from Dr. Hartman's analysis of ASPs in his December backup.

¹ "ASP" is calculated by customer as identified by customer number.

² WAC, which is calculated as AWP/1.2 until January 1, 2002 and AWP/1.25 thereafter, is measured at the June 30th value of AWP. In cases where a product's first reported AWP occurs after June 30th, the first reported AWP is used.
